BRANDON TATE

IT OPERATIONS LEADER | INFRASTRUCTURE | SERVICE DELIVERY | IAM

Round Rock, TX | (347) 370-9597 | brandontate@outlook.com | LinkedIn | brandontate.info

PROFESSIONAL SUMMARY

IT operations leader with 12 years of experience across hospitality, professional services, gaming, semiconductor, and healthcare environments. Leads day-to-day technology operations for 34 hotels, coordinating service delivery, infrastructure, identity and access, vendors, and property technology. Connects technical priorities to business continuity and guest experience through incident ownership, clear stakeholder communication, and repeatable support practices in 24/7 operations.

LEADERSHIP AND TECHNICAL STRENGTHS

IT Operations Leadership: Multi-site operations, service delivery, escalations, stakeholder communication	**Infrastructure:** LAN/WAN, Wi-Fi, VPN, access points, endpoints, A/V, telecom, vendor-managed services
Identity and Security: Active Directory, Entra ID, MFA, BitLocker, access lifecycle, least privilege	**ITSM and Support:** ServiceNow, incident and request workflows, SLAs, SOPs, documentation, root-cause reduction
Cloud and Workplace: Microsoft 365, Windows, mobile devices, provisioning, collaboration, asset lifecycle	**Hospitality Technology:** Oracle OPERA and OPERA Cloud, Aloha and Micros POS, guest and back-office systems
Program Delivery: Projects, migrations, hotel transitions, procurement, budgets, inventory, change coordination	**Partners and Vendors:** MSPs, ISPs, Dell, Shift4, Infor, Shopify, Toast, corporate technology teams
Leadership Approach: Coaching, prioritization, process improvement, customer experience, risk-aware operations	**Automation and Growth:** AI infrastructure, Microsoft security, cybersecurity and cloud-security development

PROFESSIONAL EXPERIENCE

Area Manager of Information Technology | Hyatt / Bunkhouse Group | Texas **2023 - Present**

Promoted from Senior IT Support Specialist to lead technology operations for 34 hotels, coordinating support with additional hospitality assets and corporate partners.

- Direct front-desk and back-of-house IT operations across multiple properties, prioritizing guest experience, business continuity, security, and property leadership needs.
- Own escalations across Microsoft 365, Active Directory, Entra ID, Windows and mobile endpoints, networks, Wi-Fi, VPN, POS, A/V, and hotel systems.
- Coordinate incident response with property executives, department leaders, Hyatt corporate technology teams, and managed service providers; communicate business impact and corrective actions.
- Support ServiceNow rollout and adoption through consistent ticket intake, ownership, escalation, documentation, and support workflows across properties.
- Coordinate endpoint provisioning, onboarding and offboarding, MFA, BitLocker, access changes, asset inventory, and equipment replacement cycles.
- Coordinate Oracle OPERA and OPERA Cloud transitions, including readiness planning, vendor alignment, workstation and peripheral preparation, and continuity support.
- Lead property technology initiatives spanning wireless access points, ISP escalations, network-run planning, workstation deployments, A/V restoration, telecom, and refresh projects.
- Manage vendor and MSP coordination, including scope alignment, scheduling, purchasing input, issue follow-through, and validation of completed work.
- Develop SOPs, user guidance, technical documentation, inventory practices, and onboarding standards; use recurring support issues to identify process improvements.

IT Systems Specialist | Holtzman Partners / Armanino LLP | Austin, TX **2019 - 2023**

- Procured and administered Freshservice to manage IT incidents and facilities service requests; coordinated employee onboarding and remote-work support.
- Administered ConnectWise, Webroot, Huntress, Duo MFA, and FortiClient VPN; handled IT infrastructure attestation-of-compliance requests.
- Administered KnowBe4 training modules with HR and partner leadership; supported Wolters Kluwer CCH Engagement and Practice Management, plus Zoom and Neat meeting rooms.

IT Support Specialist | ZeniMax Media / Bethesda Softworks | Austin, TX **2018 - 2019**

- Deployed and supported Xbox and PlayStation development kits, Windows workstations, and creative applications including 3ds Max and Photoshop in a game-development environment.
- Owned support requests from intake through resolution, troubleshooting hardware, software, and connectivity issues for game-development users.
- Supported account provisioning, changes, and deprovisioning across Active Directory, Adaxes, and Exchange; maintained hardware and software inventory and coordinated defective-equipment returns.

IT Support Specialist | Cirrus Logic | Austin, TX **2017 - 2018**

- Provided Tier 1 and Tier 2 end-user support for workstation, software, account, conferencing, and peripheral issues through in-person, phone, and electronic channels.
- Managed support requests through resolution, documented troubleshooting and escalations, maintained knowledge-base articles, and prepared technology for new hires.

Executive Deskside Support Analyst | HCL America / NXP Semiconductors | Austin, TX **2016**

- Delivered executive deskside support with end-to-end issue ownership, discreet handling of requests, and clear communication of technical issues to business users.
- Delivered on-call support for executives at home and abroad; trained users on applications and recommended hardware and software upgrades.

Healthcare IT Technician | Columbia University Medical Center / NYSPI | New York, NY **2014 - 2016**

- Configured an Ubuntu server running OCS inventory software to track hardware and software licensing in an environment serving more than 2,300 users.
- Supported endpoint deployment and refreshes through workstation imaging, virtual-machine setup, troubleshooting, and remote support for clinical, administrative, and research users.
